Executive Director’s Letter RE: COVID-19 Impact

The mission of Three Squares New England is to raise critical funds and awareness to fight hunger in Massachusetts.

During the COVID-19 crisis, it is more important than ever to support our 25 food partners.

- They are feeding the increasing number of individuals and families who are struggling to keep food on their table.
- People have lost their salary or their hourly wage, and often the ability to get to places.
- Many are struggling to keep themselves healthy, supporting their loved ones and keeping faith.

Distributing healthy food and increasing access to our community is our number one concern:

- Our food pantries are opening their doors on a more frequent basis and have modified their operations to distribute food in a healthy and safe manner.
- Our food rescue partners have retrieved leftover food from their traditional sources of grocery stores and markets, but have also added schools, restaurants and other establishments that had to close their doors abruptly.
- Our community farms are giving away as much produce as they can spare.

Our partners have dealt with adversity but these are unprecedented times and it's more important than ever that we continue to support each other, and to value the work of those who put the health of our community first.

Please consider a donation to our partners to keep our neighbors safe, healthy and dignified.

Sincerely,

Kati Sigel, Executive Director, Three Squares New England
